“The need for adopting and implementing Lean practices as the only means to face the tremendous, forthcoming challenges is greater than ever”

FROM THE DESKTOP OF DR. CARLO SCODANIBBIO

Dear Delegate(s),
When is the right time to go lean?

- When things go well (but everybody is so busy....)
- When things start being turbulent (but everybody then fastens seat-belts....)
- When things are really tough (and everybody panics...)

Possibly, this is the last chance of shifting direction for those "traditional" organisations that now experience turbulence, instability and ineffectiveness as never before in their history.

I intend to prove that it is never too late, provided there is appropriate drive by Top Management in getting really leaner.

I **GUARANTEE** that you will leave this workshop with the knowledge and tools to improve the value proposition of your organisation!

Dr. Carlo Scodanibbio

Event Outline .

This event is a very interactive workshop, an open conference, and a continuous round-table debate, aiming at transmitting basic LEAN MANAGEMENT concepts and principles to attending managers in a practical, hands-on, result-oriented fashion. Effective ways of progressing rapidly from principles to implementation will be illustrated.

Delegates will be requested to present the main problems they are facing in the present post-recession times. The appropriate Lean Topic suited to face effectively those problems will then be illustrated. The main Lean Topics covered in this event are:

- **Performance.** Why many private enterprises and public/semi-public organisations don't "perform".
- The key to **World-Class Performance** in all Industrial, Commercial and Business Sectors: **Lean Thinking.**
- The pre-requisites for **World-Class Performance** and for effective **Lean Management.**
- The resistance and opposition thinking to the **Lean** transition.

- **Value Adding Management** in Industry: the pilot light and driving philosophy for the new millennium. Focusing on processes to maximise **value** and eliminate **waste.**
- Deploying **Lean Management** in different industrial, business, and public sectors.
- **Lean Management** and **Technology.**
- Lean, **Industrial Culture:** the heart of **Lean Management.**
- The role of Top Management in "fabricating" and instilling lean culture.
- **Lean Management** and **People.** How to insert people in **value-generating** processes.
- How may Unions contribute to the common, **lean** target.
- **Thinking.** The ultimate resource.
- **Lean Organisation Management.**
- **Implementing Lean Management Organisation-wide:** the **Lean Master Plan.**
- **Social function and open bar.**

Timings:

Registration will be at 08:30 hrs, with the Event beginning at 09:00 hrs. There will be a 15min break for refreshments in the morning and the afternoon (at approx. 10:15 hrs and 15:00 hrs respectively) and lunch will be served at 12:30 hrs. The session will conclude at about 16:30 hrs, followed by a social function. All timings are approximate due to the interactive and intensive nature of this Workshop.
